Name: Bonny Rogers

INFORMATION DISCLOSURE STATEMENT

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Submitted herewith on Form PTO-1449, or substitute thereof, is a listing of documents known to Applicants and/or their attorney in compliance with the requirements of 37 C.F.R. 1.56. Copies of the documents are also being submitted, except for U.S. patents and published applications as provided under 37 C.F.R. 1.98(2)(ii).

In accordance with 37 C.F.R. 1.97, this Information Disclosure Statement is being filed within three months of citation of the submitted references in a communication from a foreign patent office in a counterpart foreign application and BEFORE the mailing of a Final Office Action or a Notice of Allowance in the above-referenced US application, therefore NO FEE is due.

The reference submitted herewith was cited by the Japanese Patent Office in an Office Action dated April 24, 2007 (copy enclosed) for a counterpart application.

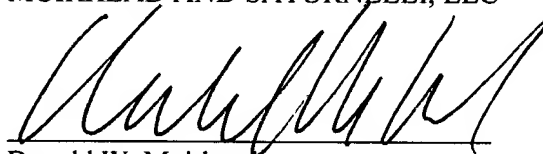

In compliance with the requirements of 37 C.F.R. §1.98(a)(3), as a concise statement of relevance, as it is presently understood by the individual designated in 35 U.S.C. §1.56(c) most knowledgeable about the content of the information, the undersigned attorney of record submits a translation of portions of an official action by a foreign examiner in which the references were cited. A copy of the official action is enclosed. The relevance to the pending U.S. patent application is that the references were cited in a foreign patent application corresponding to the above-captioned U.S. patent application. However, no independent analysis of the references, the accuracy of the statement of the foreign examiner or the claims of the foreign application under the laws of that country or the United States relative to the subject matter claimed in the present application has been made; the present understanding of the contents thereof by the undersigned being based on the translation of the foreign examiner's comments submitted herewith.

The Examiner is respectfully requested to initial the space adjacent to each document on the PTO-1449 form and return a copy of the PTO-1449 form to confirm that these documents have been considered by the Examiner and made of record in this application.

Although we believe that we have appropriately provided for any fees due in connection with this submission, the Commissioner is authorized to credit any overpayment or charge any deficiencies to/from our **Deposit Account No. 503596**. Two originally-executed copies of this form are being submitted.

Should there be any questions after reviewing this paper, the Examiner is invited to contact the undersigned at (508) 898-8603.

Respectfully submitted,
MUIRHEAD AND SATURNELLI, LLC

Note (For cited references, etc., see the Table of Cited References, etc.)

Reason 1

[Claim 1]

- Cited Reference 1

- Remarks:

It is suggested in the Embodiment [section] of Cited Reference 1 (especially in [0018]) that two straight lines prescribed by the forces of two linear motors substantially cross a vertical straight line passing through the center of gravity of a single identical moving part. As in the invention of Claim 1 of the present application, causing the above-mentioned two straight lines to coincide with the height of the above-mentioned center of gravity position in the invention described in Cited Reference 1 cannot be seen as something that newly produces any particularly significant effect at this time, judging from the description of the specification of the present application, and is therefore nothing more than a matter within the range of simple design matters.
